

COVID-19 is the infectious disease caused by the most recently discovered coronavirus. This new virus and disease were unknown before the outbreak began in Wuhan, China, in December 2019. At present, there are no effective treatments available against COVID-19. Scientists and Biotechnologists are continuously working towards the development of diagnostic kits and possible solutions to combat the spread of diseases.

BSC BioNEST Bio-Incubator (BBB), being the leading Bio-Incubator in Delhi-NCR, is supporting the Incubatee companies to develop innovative solution for the pandemic.

We feel proud to enlist the name of the Incubatees / Company who are continuously working and trying their level best to solve this global health issue & helping the country to combat COVID 19 outbreak
