

# **AIM- An Internship Connect Program**

## **Academia Industry joint Mentorship – An internship Connect Program**

AIM is a strategic programme of BSC BioNEST Bio-Incubator through which University/ College / Institutions can collaborate with BBB for 6 months industrial training of their students and researcher at BBB Incubated startups.

The Program is designed in such a way that student get mix knowledge of entrepreneurship & Biotech based innovation in vibrant entrepreneurial ecosystem within BBB premises.

### **Benefits of AIM**

- 1- Exposure of industry /startup working culture & training by experts
- 2- Edge over other candidates for job opportunity available with BBB incubated companies
- 3- Learning from BBB Expert about entrepreneurship
- 4- Opportunity to present your learning outcome on regular basis and to get the feedback from the expert for enhanced learning
- 5- Free participation in any BBB strategic programme during training
- 6- No Internship fee is charged from the students

### **Procedure to apply for AIM**

- 1- Applications for AIM- An Internship Connect is invited twice a year (Nov-Dec) & May-June). AIM candidates are selected through 2 step process (i) Screening (ii) Selection process.
- 2- Screening Process- Student need to send their resume to BBB. A screening process is conducted and selected candidates are asked to appear for 2<sup>nd</sup> / Final round of interview
- 3- Final Interview- Personal Interview is conducted and students are invited to interact with BBB startups to understand their innovation and projects.
- 4- Orientation- Selected candidates are given orientation & necessary training to understand entrepreneurship.
- 5- Certification –Successful candidates will get certificate from the start-ups companies.
